

Post-yield,  $L = 150$ ; irreversible population from  $\Delta E_R$  split

● irreversible data    — global-min truncated power law    × global minimum

 Post-yield,  $L = 150$ ;  $\Delta E_I$  irreversible

 Post-yield,  $L = 150$ ;  $\Delta E_R$  irreversible

 Post-yield,  $L = 150$ ;  $\Delta E_S$  irreversible
